PostgreSQL, MySQL, MongoDB, Firebase,

EXPERIENCE

Actualize, Remote — Software Engineer

JULY 2020 - PRESENT

➢ Learned fundamentals and best practices in full-stack web development in areas of project architecture, backend, frontend, and how to effectively self-teach new technologies
➢ Generated technical requirements and determined the most effective solutions, created wireframes, designed schema, and researched outside resources
➢ Created pages and RESTful routes, made web requests to retrieve data, formatted and styled results, incorporated libraries and themes

The Hazy Daizy, Colorado — SEO Specialist

MAY 2018 - PRESENT

➢ Used SEO suites and tools (e.g. STAT, Moz, SEMRush, Majestic, Botify, Screaming Frog, Ahrefs, Brightlocal, and DeepCrawl) to research SERPs, keywords, and reverse engineer niche competitors.

Undercover Motorsports, Florida — WordPress Web Developer

JULY 2012 - MARCH 2014

➢ Developed a build-a-dragster application that allowed the customers to spec out their dream racecar and initiate the sale process with an accurate quote.

EDUCATION

Actualize Coding Bootcamp, Remote Live — Software Engineering

JULY 2020 - NOVEMBER 2020 [PROJECTED]

➢ 13 week bootcamp via remote live classes. Curriculum focuses on learning to think like a software engineer more so than a coder. We use ruby in the backend and the Vue.JS library to create beautiful user interfaces.

Team Treehouse, Online — Full Stack Javascript Techdegree

JUNE 2020 - OCTOBER 2020 [PROJECTED]

➢ A project based approach to learning full stack javascript. We create powerful applications using node.js, REACT, Express, and AJAX.
